

NODE RED SERVICE

Date	13 November 2022
Team ID	PNT2022TMID54421
Project Name	Signs with Smart Connectivity for Better Road Safety

The screenshot displays the Node-RED web interface in a browser. The address bar shows the URL: `node-red-exoss-2022-11-16.eu-gb.mybluemix.net/red/#flow/604b0835c42fa2ba`. The interface includes a sidebar on the left with a search bar and two categories of nodes: 'common' (inject, debug, complete, catch, status, link in, link call, link out, comment) and 'function' (function). The main workspace, titled 'Flow 1', contains a flow with two nodes: a blue 'inject' node with the text 'Hello Node-RED!' and a green 'msg.payload' node. A line connects the output of the inject node to the input of the msg.payload node. On the right, an 'info' panel shows a tree view with 'Flows' expanded, listing 'Flow 1'. Below this, the 'Flow 1' configuration is shown, including the flow ID '604b0835c42fa2ba' and a message: 'Your flow configuration nodes are listed in the sidebar panel. It can be accessed from the menu or with ctrl-g c'. The bottom of the image shows a Windows taskbar with various application icons, a system clock indicating 9:56 PM on 17-Nov-22, and a weather widget showing 25°C and 'Partly cloudy'.
